# Earthquake in Southeastern Afghanistan

In June 2022, a devastating earthquake (~6) struck southeastern Afghanistan. It mainly affected the provinces of Paktika and Khost. According to the UN OCHA, more than 1,000 people were killed and 1,600 others injured in the quake that made it the deadliest earthquake of 2022 and the deadliest in Afghanistan since 1998. More than 10,000 homes had collapsed or were severely damaged and many residents, mostly women and children in these areas were displaced. Many of the earthquake survivors migrated to some areas near Kabul.

Due to the lack of transportation infrastructure and domination of the Taliban, it has been quite difficult for foreign and international aid groups to provide rapid reliefs. Niiky foundation partnered with local aid group of Imam Ali Popular Student Relief Society (IAPRS) attempted to supply emergency food for displaced households around Kabul.

The amount of \$200.14 was raised with the help of benefactors and sent through the exchange to the IAPRS's partners in Kabul. After a needs assessment, the money was used to purchase 50 kg of flour (6 bags) for 11 households.

Thank you to all our donors, volunteers, and supporters!
