The food basket campaign 2023, undertaken by Niiky Foundation was launched in March and was completed by the end of the April. This campaign was strategically designed to provide vital support to families residing in four underserved regions within the Sistan-Baluchestan province, namely Iranshahr, Sarbaz, Zahedan, and Qasr-e Qand.

The campaign's duration spanned from March to April, during which we were able to raise a total of **\$8770** through generous contributions from donors who share our commitment to making a positive difference.

Of the total funds raised, a sum of \$6000 was allocated to provide crucial support to a total of 300 families in Sistan-Baluchestan for a full month. The remaining funds were judiciously utilized to ensure the provision of nutritional essentials to an additional 150 families residing in marginalized regions within the Tehran province.

The distribution of food baskets took place diligently between April and May 2023. Our dedicated team worked tirelessly to ensure that each family in the targeted regions received their share of essential provisions. This process was carefully managed to guarantee equitable access and efficient distribution, respecting the dignity of every recipient.

Each meticulously curated food basket contained a well-balanced selection of essential food items. These provisions were thoughtfully chosen to cater to the nutritional requirements of children and families. The contents of each food basket included staple items such as rice, lentils, meat, oil, and canned goods. By focusing on these nutritional essentials, we aimed to positively impact the health and well-being of the beneficiaries.

\* Each food basket's value is about \$20.

This campaign not only provided nourishment but also instilled hope and resilience within the communities we served. As we reflect on the accomplishments of this initiative, we remain steadfast in our commitment to creating lasting positive change in the lives of those who need it the most.
